

SCAN *before* *you* SWIM

A blue-green algae bloom may be present. Blue-green algae can produce toxins that can make people and animals sick.

Be alert! Avoid water that:

Is discolored or streaky

Looks like spilled paint or pea soup

Has floating scum, globs, or mats

Has small green dots floating in it

- ✓ Do not swallow lake water or touch foam, scum, or algal mats.
- ✓ Do not let pets swim in scummy water or lick algae off their fur.
- ✓ Rinse fish with fresh, clean water and throw away guts before cooking and eating.
- ✓ Do not swim in areas where you cannot see your feet in knee-deep water.
