

4 tips for a SAFE SUMMER

Poison Centers get more calls in the warmer months.

1 ROAD TRIPPING?

Keep medicine in a cool, dry place, in original containers, out of reach of children.

2 SUMMER CAN MEAN CHEMICALS.

Supervise children while using pesticides, sunscreen, pool chemicals, lighter fluid, and more.

3 'TIS THE SEASON... FOR BITES AND STINGS!

Poison Centers can help you treat them. Remember to always follow directions when using pesticides or bug spray.

4 CHEERS TO A SAFE SUMMER.

Alcohol and heat can be dangerous—as can leaving drinks within a child's reach. Be alert at parties and gatherings.

Almost anything can be poisonous if it's used in the wrong way, in the wrong amount, or by the wrong person.

If you suspect a poisoning, don't take a chance.
