

# TIPS FOR SAFE SPRING CLEANING

A clean home is a happy home! But before you get into the swing of spring cleaning, here are a few reminders from the Wisconsin Poison Center to help keep you and your family safe!

- ✔ Follow the directions on the product label for safe use of the product.
- ✔ Open doors or windows when using cleaning products to air out your workspace.
- ✔ Keep cleaning products in the containers they came in and safely store them in a place that is too high for children to reach or see.
- ✘ Do not mix cleaning products, as it can cause reactions that could make you sick.
- ✘ Never leave cleaning products out as this is dangerous for small children and pets.
- ✘ Do not store chemicals near food. If cleaning products must go underneath your sink, consider using a child safety lock.
